The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 22-24 and 26 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by either Gagnon or Ettlin. Gagon shows clamping members 8 and 16 and a platform 3. Ettlin shows clamping members C and E2 and a platform B.

Applicant's arguments filed 4/25/06 have been fully considered but they are not persuasive. Applicant argues that the clamping members of Ettlin and Gagnon do not provide inwardly exerted component forces, the examiner disagrees as both do in order to clamp their structures to their respective supports. It is further noted that both Ettlin and Gagnon teach all the claimed elements thus satisfying the requirement under 35 U.S.C. 102(b).

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened

statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
